### THIS WEEK'S PRAYER REQUESTS AND UPDATES

**Sandy and Jerry Wickstrom** have made their move to Texas. Prayers requested that Jerry's health improves and they find a church home there. **Esteban**, the son of Peggy Cherry's friend, had heart surgery this past week. He has also been battling leukemia for almost two years and developed graft versus host syndrome after a bone marrow transplant last year. Bobbi Deffee asked for prayers for her sister, **Pamela**, who has an infection after breast cancer surgery; and for her brother, **Apache Crying Bear**, who has liver issues and congestive heart disease. Ignacio Alvarado's sister, **Maria**, who lives in Mexico, became ill while in the U.S. **Lynn McClurkin** has a lump on her jaw that is very painful; this is in addition to the pain she has most of the time. Don Findley's brother, **Dennis**, had a heart attack and a stent placed. At press time he was doing well. Jim and Helen Madsen's granddaughter, **Alyssa**, is expecting a baby in mid-April, however the baby is in some distress so she will be induced on Monday. Prayers requested for a good outcome.

(For those on our long term prayer list, please see the monthly newsletter.)
